On Yahoo.

I didn't call

On purpose

Ok got a call from your other phone

Ok sending. Was just reviewing

Probably by mistake

Ok

Note yahoo shows 2 attempts from Romania but 1 of the ip is actually Netherlands

And all of that started AFTER you shut off 2 factor to allow for Randall's tech team to get access

Make sure J knows all of this was after 2 factor was shut off at lawyers and gov request

Only weird issue is yahoo ip login history seems to have wiped out Romanian login

But abus yahoo shows email application from russia

Can u send me photos

Yes

I call him master airhead

haha he'll take that as a compliment and this you're referring to the new Macbook

Lol MacBook Airhead is perfect for him, includes an assistant to keep track of his agenda for each day  
Last two: 3544 and 3570AZ :)  
lol done he's got his geek name :)

3544 is the 4th page here I think  
Great thanks  
ok please let me know about Yahoo declaration stuff and what you think...driving me crazy, no lawyer  
awesome  
What do the lawyers think?? This is the first explanation that makes sense to me.. o was telling me so  
all his emails were transferred to one of the other accounts?  
yeah there were some email movements between accounts...but even before I can't figure out the Yahoo  
do they use 'oamanat' or 'omar@amanatcapital' as the search term ... the testimony is inconsistent  
I mean it would make sense that the 0 returns were because they fucked up their search... All I'm seeing  
trial but from what you said it makes sense  
Was it critical at trial?  
that's basically everything. but my lawyer is saying maybe they just screwed up in the testimony and  
SUPER critical  
was foundation for their entire theory  
ONLY  
otherwise they had nothing  
yeah judge said ONLY if Yahoo gave this testimony would he even allow this investigation...  
But that makes no sense... Are they saying he faked all his emails  
YES  
which is crazy...  
All the hundreds of emails  
Wtf  
meaning...according to their theory...he faked HUNDREDS of emails  
not just a few  
and spoofed the times using a zero-day yahoo hack(albeit a simple one, still no one knew of it, not even  
so issue is where did the HUNDREDS of emails come from....  
my answer was - they WERE there on Yahoo (I had seen them live).....but Yahoo screwed up the search  
but lawyers keep defending Yahoo  
saying they 'never screw up searches' and they 'never cover up system problems'  
Rofl  
obviously Stamos LEFT in 2016 because of the system issues at Yahoo...so for lawyers to defend Yahoo  
That's fucking retarded. How was that allowed in a court of law  
lol yes  
Did your tech expert not say anything  
was absolutely allowed

Yahoo had complete credibility that there were no system problems there

NOPE

nothing

nothing of Stamos, FBI spying program, AMT hack, Podesta hack....Mayer giving testimony about Yahoo

nothing

Hmm so do you think I should add two sections of both the Yahoo breach / DNC hack AND this stuff ab

I mean....read it first and let me know what you think. Every tech person I've shown it to agrees (duh)

DEF do Yahoo breach and DNC hack

Literally all we have to do is prove that one of the emails is real to destroy their entire argument

I mean - yeah - lol....the GOV even admitted they were real

they first said they were fake because of time zones...then backtracked

then because of different 'RE's in Subject lines... then backtracked

Yeah lol... How has this not received ANY press or input from the tech community, I don't understand

truth is too complicated.

Is it SOP to invent bullshit tech in the court of law and no one to call them out on it?

a simple lie is easier to believe (see our prez)

I didn't think this was possible....they make up theories on the fly...I really thought they were more so

seriously - they were using credit card receipts to prove emails were fake.....and said so in court.....th

It's pretty incredible... Had no idea they did this

What a joke the whole system is

yeah so was confident because it was laughable and unbelievable..

but they literally kept trying and failing until we ran out of time

the freaky thing for me is...they told Omar to turn off 2 factor...

which I told him was crazy and not to do....but only after he turned it off Decapue came and said he h

anyway just crazy system

Mmm

Did you do a write-up on the DNC/Yahoo timeline and the link of IPs from O's breach to the DNC breac

I didn't link the IP's from O's breach to DNC breach...didn't realize until O or you pointed it out

I didn't emphasize DNC/Podesta in Yahoo timeline but I think that was a mistake, was definitely conne

So there were two Romania attempts in December

An attempt from Singapore in nov

When was the Russia one?

yeah but Yahoo is mistracking the Romanian IP's

I don't think I have that screenshot

one of the ones Yahoo is saying is Romania is actually the Netherlands...

Ah

The other one Yahoo says is Romania is Romania

89.31.57.5 = Netherlands

93.115.95.202 = Romania

So ... either the Global NIC table is wrong....or Yahoo's IP lookup system is wrong...

:)

ah yes...the Russian one is wierd...

during the Singapore login...

WHAT?!!! YAHOO CANT BR WRONGGGGGG!!!!!!

lol :)

YES thats what the gov is saying - YAHOO IS 100% perfect!

So they try twice in a row using some kind of proxy and fail... And then when is the Russia attempt  
ah Russian attempt...here...

File Transfer: /data/user/0/org.thoughtcrime.securesms/app\_parts/part-1301975275.mms

only after I dug around a bit I found it

my father was ALSO told to turn off 2 factor

Hmm.. who was telling them this??

Is there a screenshot with the IP?

no

didnt' get that

Ahh.. O was saying the IP was same as guccifer

and now we are staying completely away from logging in

hm. which IP was guccifer? sorry I don't know

Oh I'm not sure the exact IP.. I just thought O said there was a screenshot with IPs and I told him to run  
I'll have to ask him again and see

yeah I think he meant the Romanian login

Ah

So the 93. IP?

for Russia..I remember was Moscow...but no more details

yup

What's it link to

93 was Romania

Was there a date or time on the Moscow login

a shared hosted site

where other hackers used

I mean Romania clearly was used by other Russian hackers, just don't know if Guccifer

don't remember Moscow login...but same time...right after 2 factor shut off...around first week of Dec  
Gotcha

Guccifer seemed to use a VPN from Russia and an exit node in France...

<https://www.threatconnect.com/blog/guccifer-2-all-roads-lead-russia/>

IP starts with 95....not 93....I think O confused on this point

But 95 IP was a VPN hub as well for other russian hackers it seems

He's just so desperate to tie everything together lol

lol yes...

We've got my WaPo contact we're sending stuff to but he doesn't want to send this until his letters are

I vote no on the Guccifer link, honestly

yeah

I mean no direct link or proof to Guccifer

Now that I'm looking at everything I don't even know if it's worth adding it to the expert report at all t

yeah that's where I'm confused as well

The breach happened after all the info was handed over to the prosecutor

which part the DNC or Yahoo AMT?

oh no it wasn't...

Oh it wasn't?

this is the crazy part...

The emails they claim were faked?

yeah understand the timeline....only because I was there I knew...

yes

the prosecutor got the body of the emails in Nov....

so the emails were there in Nov , no question.

THEN the prosecutors / Decapua asked for the email headers (inc MessageID, etc)

THEN the breach happened.....

THEN they prosecutors got the email headers....

THEN the prosecutors - for the first time - had a 'surprise' new theory emails were fake

Ah ok. Yeah O has always wanted to argue that the Russians hacked his email and faked the emails...

All their previous theories were proven false

Yeah I was uncertain as well ...

Emails WERE there (don't know which account though)

my theory is more Yahoo screwed up and confused the 2 accounts.

So the prosecutors asked for metadata THEN breach?

but on the other hand ... the 2 factor was shut off...someone tried to login from ROmania...was wierd

YES

Prosecutors asked for metadata - and told Omar to shut off 2 factor ....and THEN Breach

timing was way too coincidental. Like the Trump request to hack Hillary's email in June 2016. Just too

And it happened TWO more times btw.

I don't understand why the prosecutors told him to turn off 2-factor....

How does that have anything to do with anything

They said they wanted full access - they couldn't download the headers...

YES I KNOW

I told him NOT to shut it off trust me.

Huhhhh??

Lol...

But the prosecutors (or Randall) said their tech expert needed it to be shut off for some reason

LOL

LIKE I WAS SCREAMING DON'T SHUT IT OFF :)

They were logging into his email??

yeah

The govt?

no sorry I think Randall (his lawyer's) tech wanted to login

and they couldn't login

had tech problems :)

they were using an older mail server

oh yeah ironically

!!!

sorry older mail client

so they asked Omar to shut off 2 factor to access the system via the mail client...

ironically - the mail client Decapua was showing during his hack...

Ohhh HIS tech expert wanted him to turn off two factor

yes

Just happened around the same time

HIS tech expert said shut off 2 factor - and allow older apps

yes

happened same time

I mean, possible coincidence

Mmm

he had many other hack attempts...

but timing was wierd....only after 2 factor was shut off...and hack attempts....did prosecutors get the info

they didn't have it before

How did they get it

And why didn't they have it before?

Didn't they do a sw

they initially just had the body of the email

then they asked for the metadata

but you're right its a bit confusing

O is focusing on Russian hack, I am focusing on Yahoo system screwup

Yes I think you're right

they are ironically linked but are different issues

Right

lol I mean YOU agree and every tech guy agrees...but O and lawyers and others disagree and think its

so I'm on the fence on Russia. I mean they did hack Yahoo and break the AMT...but that proves more t

I mean Yahoo systems were messed up.

Which is why it's interesting that Stamos left because of the FBI Yahoo spying program which broke Ya

Yesh

lol sorry fun talking to someone who gets it :)

I mean the hack is interesting but I'm not sure it's relevant to the question of the emails

exactly. I'm on the fence without further proof.

Being fradulent

Hmm so why did the govt ask for metadata anyway

for tech report I suggest the Yahoo AMT search inconsistency. But I'm still open to be proven wrong. A

Was that before decapua got involved

well they asked for the meta data after they screwed up on the time zones...

they had a lengthy brief based off time zone theory...was a big deal...had SDNY head come in...

and then they looked foolish

LOL

They are fucking dumb

yeah was ridiculous....but scary...they looked so stupid to everyone they had to cover it up...

It was obvious that each email client was embedding the local time in the email

so brought in ANOTHER FBI expert....testifying on deletion of emails....

Oh that wasn't decapua who did the timezones?

YUP was local time. I had an argument with my lawyer on that. She refused to believe me until it was

Lord have mercy

No wasn't decapue for timezones....oh well yes maybe he was also involved in timezones...but gov wa

It's like a alternate dimension where technology isn't understood at the most basic level

then the second expert was worse...she basically lied.....said there were no deleted emails.....  
And there is nowhere to find any grownups  
in a file that had a folder saying 'DELETED EMAILS'....  
yeah was a joke  
they are powerful and don't want to be proven wrong  
The second expert? What was that for  
yes they had an expert just before Decapua...she was worse  
Amato  
Ahh that sounds familiar  
her testimony was laughable...have to read at some point  
What did she claim  
Damn I bet I missed some good opportunities for ridicule  
hahah you have to read  
I had a few good lines from them but there is definitely some gold I missed in the transcripts  
haha well it was so laughable that I think we got a bit overconfident...  
but yes you have to rread  
O wants to know if y'all took any notes when you realized it was a Russia ip  
ya of course I freaked out  
took the snapshots and notes....  
He wants to know if you recorded the actual IP and if you can find the notes  
told my lawyer...she said I was crazy because Yahoo had 'no reason to cover up' and they had no syst  
Gotta go get phone charged (hopefully) bbl  
ah ... yeah I am sure I did... when I had the fallout with my lawyer  
ok sure  
File Transfer: /data/user/0/org.thoughtcrime.securesms/app\_parts/part1668618172.mms  
could you read this as well and see if helps your UUID part?  
interesting where php coder said he uses a-z for his code for efficiency

ChBwnytyhB7RcuvsV7HillBDEAEaAUoiDCsxODA2Nzc3NDg0MSIMKzEzNDc4ODI4MTMz  
Hey

<https://www-m.cnn.com/2017/03/14/politics/justice-yahoo-hack-russia/index.html>

[https://docs.google.com/document/d/1sAcuMQHRxzhZLmtNhKjdYzY09VF5zK-ILkeyu\\_NKzeQ](https://docs.google.com/document/d/1sAcuMQHRxzhZLmtNhKjdYzY09VF5zK-ILkeyu_NKzeQ)

Yeah that's great for UUID generation. Essentially it doesn't have to be built to the spec... But even m  
format technically lol

lol YES great point

totally forgot with all of Decapua's 100% confidence talk

I'm adding your Yahoo declaration almost in its entirety.. do you have GX 3580 that I can throw into m

File Transfer: /data/user/0/org.thoughtcrime.securesms/app\_parts/part1800211487.mms

Thanks!

here ya go!

btw what's your opinion on the Yahoo AMT issue?

Related to issues with the SW ?

Or the data breach

regarding the SW

for data breach its unclear, for SW I'm trying to see if they searched for the wrong account or not

my lawyer said AMT response may show wrong account, but AMT may combine multiple accounts into  
just confused. i'm looking for second opinions

Yeah I don't know much about their amt... Do we have those returns?

Like the attachments in the email GX 3580

That you refer

kind of. gov gave 1 of the attachments, not the other.

which is the AMT response showing only 'oamanat' and not 'omar@amanatcapital.com'

What? Why did they only give one

I know. its wierd

which is why I am pushing for the other one. but when I do, the gov is threatening me.

so I want to subpoena yahoo...but want to analyze fully first and get second opinion

So what is the response we did get? Does it look right

Oamanat

response says oamanat only

File Transfer: /data/user/0/org.thoughtcrime.securesms/app\_parts/part2124558642.mms

ALL the evidence I can see says Yahoo searched the wrong account. But I want to rule out the anti-theft  
so need someone who understands Yahoo AMT tool.

as well as the Russians do :)

Hmm well it's basically impossible to say from just this

O should be the one to subpoena I'd think

But what would the risk be?

yeah I feel the same. which is why I may have to take the risk and subpoena

yeah O's lawyer requested the wrong subpoenas...I wanted it for BOTH accounts, I think he did only o

ah the risk is...wierdly...the gov threatened me if I asked for the data from Yahoo

they would only bring up Yahoo if I subpoena Yahoo...

which was great - I took that as a data point that the gov is scared of SOMETHING at Yahoo

Wow really??

That's incredible lol...

What are they planning to "bring up"?

yeah I mean...like they gave a clear tell...

lol ironically they are going to 'bring up' Yahoo...ONLY if I ask for the Yahoo subpoena

They respond to everything with extreme aggression like the cunts they are

yes but this time they were weak...

meaning...they are bringing in everything BUT Yahoo...

so something is off

anyway just wanted your thoughts on it.

I mean I think you nailed it in the write up you did.. but we can't confirm anything without the full return

At least, I'm trying to search for some other way to verify

Yeah I agree !):

Not as technically sophisticated as your analysis so I am humbled

Should I quote Billy maddison regarding decapua

Mr. Madison, what you've just said is one of the most insanely idiotic things I have ever heard. At no point has it ever been considered a rational thought. Everyone in this room is now dumber for having listened to it. I award you no points, and may God forgive your stupidity.
